Landscape Update for September 2025

General Maintenance

- We have detailed and cleaned up the RiverHouse and RiverClub. Next week the team will trim all the shrubs to the proper level.
- o Team is spraying for weeds throughout the community and trimming shrubs.
- o Teams are working on full maintenance every week.
- We will ensure that all tree suckers are removed from the base of the trees.
- o Team has been spraying all mulch beds for clean appearance.
- We are removing as much Moss from trees as we get to each section.
- Teams have removed numerous trees and limbs that have fallen at no charge.
 Larger trees will be proposed for removal by the arbor team.
- Mattamy, Vesta, and Yellowstone are doing monthly drives throughout the community to check on the status of concerned areas and the overall appearance of the community.
- o Fall flowers were installed on September 26 along with fresh and rich soil. We raised the beds for a better show.
 - The low beds have caused the flowers in the past to decline prematurely and not show off as intended.
 - This is caused by the flowers staying too saturated which causes the roots to rot.
- Proper mowing heights for each type of turf will be achieved throughout the winter and early spring months.
 - Because of this you will see scalping occasionally until the proper height is achieved.
 - Ex. If you want to maintain a height of 4in you need to drop the level of the existing canopy of the turf to between 3.5-3.75 so

that the new green growth is what is shown after each mowing occurrence moving forward.

Irrigation

- Techs have been running through the system and making repairs as we go.
- o All clocks are set to run 3 times a week due to the amount of rain we have had
- Lead tech is working with an IQ system to help the system run more efficiently.
- o We are setting five-day rain delays when we have rain
- Other options are being looked at to make the system more efficient and save on the annual water cost.
 - Items being looked at:
 - Eliminating bubblers on established trees that do not need them anymore
 - Making sure all rain sensors are operational
 - Adding rain sensors to battery operated valves
 - Each area will be different depending on layout and justification of cost.
 - Some will be looked at to be added to a clock with wiring.

• Fert/Chem

- Our techs will be treating turf weeds throughout the community.
- Teams are spreading granular fertilizer to green up turf and push healthy growth

Arbor

 We will continue to lift low hanging trees throughout community each week for line of site issues, safety issues, aesthetics, and improved tree health with balanced weight distribution from the branches.

RECDD I

Filter Equipment for RiverHouse Pools:

The sand filters for both pools need repair. The sand needs to be changed out. When performing a change out there will need to be internal parts changed as they will be broken due to their age. Unfortunately, the manufacturer of these filters went out of business years ago and the parts are not available. This will make the filters have to be replaced. The slab cracking issues are band aided as well, and the slabs need to be removed and built properly up to current codes. This was approved as a change order to the current remodel project which began on 9/22.

RiverHouse Pool:

Crown Pools has ordered the pavers, and the project has been ordered to start right after Labor Day per the board's direction. Pavers arrived on April 28th and are stored on site. Construction began 9/21. As of now the pool deck has been completely removed and new pavers are installed on the upper deck. Palm trees have been removed; water has been drained and chip out of the old marcite has begun.

Pothole on Footbridge alleyway:

There is a large pothole that formed on one of alleyways off Footbridge in the Gardens neighborhood. We got with the District Engineer to investigate the root cause of the pothole, and it was determined to have not been caused by an underlying water or drainage issue. We cold-patched the area for now until we can get it properly repaired. Duval Asphalt addressed this pothole properly for the time being until other work is decided on. This was approved to be completed by Burnham Construction in April's meeting, and we will coordinate through the District Engineer to get it completed. This was approved as a cost share item in September's meeting so we can now proceed forward.

Fencing around Rivertown BLVD:

The perimeter fence that surrounds Rivertown BLVD and connects onto Kendall Crossing is rotting. We have replaced boards that fall off, and it needs painting at least. Our suggestion would be to replace this with Vinyl fencing rather than invest in painting it. We will gather quotes for this.

Water Fountain:

We are exploring the addition of a water fountain in the gym that is permanent and filtered like the ones in our newer facilities. In time this would save money due to no longer needing to provide cups or

water jugs. Work will commence on this right after Labor Day coinciding with the pool remodel. This project is now complete.

Riverhouse Rental Side Broken Window:

An exterior pane of a window was shattered on the rental side of the RiverHouse over the weekend of 6/21. These windows are made by Pella and cannot be worked on by other glass companies, so we are working through Pella directly to fix. Yellowstone will be paying the bill for this repair. Product has been ordered.

Arbors Play Park Turf:

The arbors play park holds water badly due to the amount of clay in the soil. This makes growing turf a challenge as the ground never dries out, even though we shut off the irrigation back in April. We plan on remediating the area soon. This remediation includes aerating and soil amendments along with adding some sod in areas that are beyond repair. This is now complete, and we are monitoring for improvements.

Fountain behind model homes:

The fountain behind the model homes is inoperable but still under warranty. We are working with our pond provider to get this fixed through the manufacturer.

Painting of RiverHouse:

The RiverHouse needs painting both interior and exterior. We are gathering quotes to present to the board in October. This is a planned capital reserve project.

Sternwheel Park:

We have been working on cleaning up Sternwheel playpark. This includes replacing rotted wood on the mailbox pavilion and repainting it entirely and new park benches as the old ones were rusted through.

RECDD II

CDD 2 Golf Cart Path Signage Update:

The signage that was approved in last month's meeting has been ordered. These are custom made to order so our target install date is September 30th.

Keystone Corners turf:

The turf along Keystone Corners has numerous areas that died during the drought this year. During the drought the water pressure in the reclaim system was weakest in this area, leading to its demise. We will be replacing sod in numerous areas along this stretch.

RECDD 3

Fountain in front of RiverLodge:

The fountain in front of the RiverLodge became non-operational. We are working through warranty to get this fixed.

RiverLodge Gym AC and Pool Equipment:

The air conditioning inside of the Riverlodge gym has been having trouble staying at the setpoint temperature. It was found this week that transformers inside of the unit are fried. This unit has an abundance of low voltage components that are being affected every time we have a power issue which we seem to have a lot of. Surge protection was approved for these AC units and at the pool equipment panels as well. We have ordered these, and they will be installed immediately upon arrival.

Work Details

Specialist Comments to Customer

Report reflects work performed on 9/25 & 9/26. Herbicide was used to control invasive and nuisance vegetation along the perimeter of ponds 94,93,92,80,PP & II.

Algaecide was applied to ponds 89,82, & PP to control algae.

Aquatic herbicide was added to mix in order to control submersed vegetation in ponds 89,82 & PP.

I focused on the residential side of PP this visit. I will follow up on the other side along with any remaining growth next month.

Probiotics were added to pond PP at the East end by the culvert to help control nutrients contributing to growth.

Dye was added to ponds 93,82,II & PP to help reduce light penetration and suppress growth.

Any accessible trash was removed.

I'm noticing far more algae and submersed vegetation in ponds with reclaim water runoff from irrigation.

Some sprinklers are spraying directly into ponds, some into roads and storm water grates, and some are eroding banks from busted irrigation. This is all a point source for nutrients and directly causing algae.

I will keep treating as much as possible, but this is a never-ending battle against a constant nutrient source until this is rectified.

I may recommend some more ponds for phosphorus mitigation.

I would also like to allow for the beneficial natives along the edge of the ponds to help utilize some of these nutrients and stabilize shoreline. I've been asked to treat them against my recommendation. Please reconsider, as littoral vegetation is highly beneficial and many customers spend a lot of money on their value but I'm treating them here where they are trying to come up naturally and thrive in the eutrophic ponds.

Water levels are getting better from recent heavy rains, but there are still a lot of low ponds. Thank you for being a Solitude customer!

SECOND ORDER OF BUSINESS Audience Comments

THIRD ORDER OF BUSINESS Discussion of Hallow-Crawl Event

Ms. Gentry stated regarding the Hallow-Crawl event, we did receive a list of requested property use from the event planners and the board did receive an excel spreadsheet that summarizes where the uses are proposed to occur and what activities are proposed to occur. We had a long call with our district insurance carrier and summarized their advice in an email to the board. They did caution that if there is any large event where you don't really have a defined event space where it is one host hosting -- in the RiverHouse for example, that is easy to control -- But with a big event like this where you don't control who is coming in, you don't control who is attending, you have many different hosts, you have many different vendors and no central source to hold accountable it is more difficult to control the liability. Your insurance carrier said at a minimum we want insurance, both from the host and from any third-party vendors that are hired to perform on district property. We would want waivers through the wristband signup process. They strenuously cautioned against allowing alcohol to be served on district property for this event due to liability concerns. Ms. Gentry clarified that the District is not controlling or restricting what homeowners can do on their personal property; this discussion is only regarding what can be done on District property.

Discussion ensued.

After discussion of liability, no third party vendors on district property, allow reduced scope of activities, residents may ask county to block of roadway, individuals assume liability on their own property, individuals may request additional law enforcement, limited number of guests

at district amenities, individual event insurance, one event insurance policy to cover the whole event, sign waiver when picking up wrist band, wrist bands, indemnifications, after event clean-up the boards took the following action.

On MOTION by Mr. Thomas seconded by Mr. Smith with all in favor limited use of district property would be allowed for the Hallow-Crawl event, no alcohol served or sold on CDD property, with precautions in place to include a use agreement with provisions for insurance, indemnification as well as third-party insurance and waiver language in the sign-up forms and use of wristbands for CDD II property.

On MOTION by Mr. Thomas seconded by Mr. Smith with all in favor limited us of district property would be allowed for the Hallow-Crawl event, no alcohol served or sold on CDD property, with precautions in place to include a use agreement with provisions for insurance, indemnification as well as third-party insurance and waiver language in the sign-up forms and use of wristbands for CDD III property.

On MOTION by Mr. White seconded by Mr. Cameron with all in favor limited us of district property would be allowed for the Hallow-Crawl event, no alcohol served or sold on CDD property, with precautions in place to include a use agreement with provisions for insurance, indemnification as well as third-party insurance and waiver language in the sign-up forms and use of wristbands for CDD I property.

FOURTH ORDER OF BUSINESS Overview of Tri-Party Interlocal and Cost Share Agreement

Mr. deNagy stated a few months ago we talked about having a joint meeting to talk about the cost share process. This started with discussion of a couple items, one of which being the Garden South alley repair, splash pad repair, and along with this is the interlocal agreement that was entered into in 2019 at the time Rivers Edge III had not been established. The intent was for us to bring forward an amendment to that interlocal agreement that would clean up some of that language, remove Mattamy and put in Rivers Edge III. We don't have that amendment available at this meeting but what we can do is give you an overview of the cost share methodology and how it works.

There are two sections, the first of which is landscaping, irrigation and stormwater, because the districts are not yet fully built out, Rivers Edge is built out, Rivers Edge II and Rivers Edge III are still developing so the cost share model says that we would project out what total build out costs would be and there was an estimate determined that said this is what these costs would be for Rivers Edge II and Rivers Edge III when they are fully built out. We add all three of those numbers and get a total for landscape, irrigation and stormwater -- what I'm considering to be grounds maintenance. It came in around \$4 million so we know the total cost, but we need to look at what is called ERUs. Each district has a development program that says there is going to be X number of homes, X number of 55-foot lots, whatever it is but there is a percentage assigned to all these different lots. Each district is going to have its own ERU value and its own share of the costs based on that development program. Rivers Edge I has more ERUs than Rivers Edge II. Rivers Edge III is a very similar development program so those ERU values are very similar and II is a little less. That means that of that total cost share, for this upcoming fiscal year we determined that Rivers Edge is responsible or 35.5% of the cost share, Rivers Edge II is responsible for 29.48% and Rivers Edge III is responsible for 35.02%. Of that \$4.75 million Rivers Edge is responsible for 35.5% and that allocated cost is about \$1.7 million but we know by looking at the budget what Rivers Edge actually pays about \$2 million. You are paying more than the cost share model says you should be paying. You need to be subsidized from the other districts. Each district has its own allocated cost, and it tells us who owes what. In this model Rivers Edge II actually is responsible for \$1.4 million but their projected total costs are about \$900,000. In this model Rivers Edge II would actually subsidize the cost for Rivers Edge and Rivers Edge III. In the budget Rivers Edge would see revenue every month from Rivers Edge II, which is to help cover the costs of the landscaping that Rivers Edge pays for.

We have a similar model when it comes to amenities. Amenities are a little more straightforward because we are not using projected costs, we are using budgeted costs. Those budgeted costs are based on historical spending. The RiverHouse has been in operation for a while, and we feel good about what those costs are. It includes everything it takes to operate the RiverHouse amenity center. We take those total budgeted costs and apply those same ERU percentages. For example, Rivers Edge's allocated costs are \$907,000 but you are paying over \$1 million and this model says the other districts need to subsidize your costs to run this amenity center.

It is very technical and I'm happy to go over the numbers with each of you, but that is how this cost share model works. The goal moving forward is now that Rivers Edge II has a capital reserve study, Rivers Edge I capital reserve study was from 2023, Rivers Edge III I would like to get a capital reserve study done next year then all three districts will have a capital reserve study so we know all the large capital projects that we know we are going to have to repair or replace, we know the costs between all three districts. I expect to have an amendment to the interlocal agreement at the next meeting to clean up the language.

Ms. Gentry stated obviously this agreement was drafted years ago, it is our best prediction of items that need to be cost shared by three districts so that everyone has some certainty for the majority of items that come up. There are items that come up that were never contemplated under the cost share but may make sense to cost share. There may be something that requires more maintenance than we thought it would and in that case the cost share agreement does provide for supplemental requests when these special cases come up. If the districts do not agree, it provides for calling a joint meeting so that everyone can get together and discuss it. All the proposals that we will discuss today is how the interlocal was contemplated to work, we are following the processes.

Mr. deNagy stated what I tried to shift towards in this budget cycle was to put in these anticipated capital projects. That way each board saw it through the budget process, each board approved them so that we try to avoid the confusion of who is paying for what. What makes it complicated is when the cost is higher than what was approved in the budget.

FIFTH ORDER OF BUSINESS Consideration of Cost Share Items

The next item was taken out of order from the agenda.

RiverHouse Sand Filtration System

Mr. Losco stated this item was budgeted but the cost came in over budget and we are asking for a change order to the contract of about \$50,000.

After discussion the boards took the following action.

On MOTION by Mr. Cameron seconded by Mr. Baron with all in favor the cost share for the RiverHouse sand filtration system for CDD I in the amount of \$62,125 was approved.

On MOTION by Mr. Smith seconded by Ms. WeMett with all in favor the cost share for the RiverHouse sand filtration system for CDD II in the amount of \$51,590 was approved.

On MOTION by Mr. Smith seconded by Mr. O'Leary with all in favor the cost share for the RiverHouse sand filtration system for CDD III in the amount of \$61,285 was approved.

A. Gardens South Asphalt Repair

Mr. deNagy stated Rivers Edge did approve this request in April and after we looked at it, the model does not contemplate alleyways. The idea was that this would come back as a supplemental cost share request to CDD II and CDD III.

Mr. Losco stated we just got an updated quote from Burnham Construction, and the new quote is for \$128,066.86 of which CDD I's cost share would be \$45,463.74, CDD II would be \$37,741.01 and CDD III would be \$44,849.01.

Ms. WeMett stated I looked at the cost share agreement and did not see a provision for alleys.

Ms. Gentry stated the cost share does not provide for automatic cost sharing of alleys. That is why it is coming back as a supplemental discretionary cost share request.

Ms. WeMett stated in Watersong we take care of our own roads, and you should take care of your alleyways. The alleyway provides no benefit to the whole community. It is an extension of someone's driveway. No one can get to it from an amenity center in another community. I have had multiple people reach out to me from my district on Facebook and email asking that I vote no on this issue because they feel this is an expense they shouldn't pay for in our district. I told them I was voting no because I had people ask me to vote no.

Mr. White stated I would just ask that you think about the future and if CDD II would need repairs that may not exist in the cost share.

Ms. WeMett I'm just telling you what my constituents have told me, and I rely on my constituents. I object to the Rivers Edge II board sharing costs for a private road that none of our residents use on a regular basis.

Mr. White stated the residents of CDD 1 utilize it to get in and out of their homes, and the county utilizes it through their vendors to pick up trash.

Mr. Baron stated this is why I had a discussion with DJ and the engineer to find out why Mattamy isn't responsible for this since it was the plan for the community.

Mr. Stillwell stated for everyone's knowledge, the Gardens South development was done prior to Mattamy coming into RiverTown, it was done by the original developer, St. Joe. I did go back to aerials from 2009 and 2010 because it was prior to my time and those alleys are 15, 16 years old at this point. From a history perspective it predates Mattamy.

Mr. Baron stated we don't want to start fracturing and say, I'm not going to pay for this and I'm not going to pay for that. It is one community that everyone supports.

Mr. Smith stated I wish it would have been perceived that way when we fixed the fountains out front that benefit the whole community at the entrance.

Mr. Baron stated that was to Mattamy's benefit and it was also Mattamy's property.

Mr. McIntyre joined the meeting at this time by telephone.

Ms. WeMett stated I would like to know if any other Rivers Edge II board members received any requests from any residents about this issue.

Mr. Reid stated I received about 14 emails from different residents. All of them opposed to cost sharing. A lot of them specifically quoted the agreement, "All alleys and private roads are not in the cost share agreement between the three Rivers Edge CDDs." I think I've gotten a total of one email since December until one week ago and now I have 14 emails from different people.

Mr. Thomas stated I also got a bunch of emails, but CDD II is not my concern. My concern is whether or not this is a true cost share item.

Ms. Gentry stated it is not a cost share item under our current agreement; we are following the procedure for supplemental requests. It is discretionary for CDD II and CDD III.

Mr. Stillwell stated all the roads in this main original development area that extend up into the Gardens are owned by Rivers Edge CDD, they are not owned by the county.

A resident stated all future road replacements or repairs are included in the reserve study to be replaced by the Watersong HOA, not the CDD, and we are assessing our residents to do that over the next 20 to 30 years, so there is not a cost share agreement between CDD II and the other CDDs because our HOA is taking responsibility for that, so I think CDD I should pay for their own roads because they are the ones using it.

Ms. Gentry stated the interlocal agreement does provide for certain shared roadway costs, but it refers to the offsite roadway costs, so the cost of S.R. 13 roundabout, C.R. 244 landscape

maintenance and surface water management, C.R. 223 and S.R. 13 offsite improvements as well. It is more about the improvements within the right of way, not the road surfaces.

Mr. Cameron stated so then we need to keep that in mind for what we need to have for reserves in the future.

Mr. deNagy stated the reserve study does contemplate asphalt replacement.

Ms. Gentry stated the Rivers Edge I board previously approved a proposal to do this repair and maintenance. We now have an updated proposal and because the board has not been presented with that new proposal but they have made the cost share request so the ball is in CDD II and CDD III's court to make a motion if you would like to participate in that cost share.

Ms. WeMett moved to oppose CDD II's participation in the cost share for the Gardens South asphalt repair, Mr. Reid seconded the motion and on voice vote with two in favor and Mr. Smith, Mr. Thomas and Mr. O'Leary opposed the motion failed.

On MOTION by Mr. Smith seconded by Mr. Thomas with three in favor and Ms. WeMett and Mr. Reid opposed the cost share for the Gardens South asphalt repair for CDD II in the amount of \$37,741.01 was approved.

On MOTION by Mr. Smith seconded by Mr. Thomas with all in favor the cost share for the Gardens South asphalt repair for CDD III in the amount of \$41,647.02 was approved.

On MOTON by Mr. Maynard seconded by Mr. Cameron with all in favor the cost share to the Gardens South asphalt repair for Rivers Edge in the amount of \$37,668.77 was approved.

B. Splash Pad Repairs and Maintenance

Mr. Losco presented the cost share request for the splash pad repairs and maintenance.

Mr. deNagy stated the splash pad is on Mattamy property and depending on how the boards want to move forward with this, we would potentially look at doing a maintenance agreement that says that we do want the district to maintain this amenity, hold the health permit and that is part of this discussion. How do we want to do this moving forward to have the district pay for these, have these be cost shared items, enter into a maintenance agreement so that it is clear who is doing what.

September 17, 2025 Rivers Edge CDD

Ms. WeMett stated it appears in the county records in 2017 that Rivers Edge CDD transferred the property that the splash pad is on and the sales center to Mattamy. If that transfer of property took place in 2017 why wasn't the certificate changed regarding the splash pad with the board of health?

Ms. Gentry stated I think what you are seeing is a discrepancy on the property appraiser's website in the section where they usually only list deeds, they have listed other types of documents. So this property has always been owned by Mattamy, it was never owned by the CDD or deeded over to Mattamy by the CDD. The splash pad is operated as something that is open to the community to use. Historically, CDD I was paying for the maintenance of that splash pad since it was open to the residents to use as an amenity. As long as it serves a public purpose that is a permissible use of district funds if the Board chooses to do so. I recommend getting a maintenance agreement in place if you would like to continue maintaining this.

On MOTION by Mr. Maynard seconded by Mr. Baron with all in favor the welcome center splash pad repair cost share for Rivers Edge in the amount of \$2,972.16 was approved and staff was directed to add the splash pad to the website as an amenity.

On MOTION by Mr. Smith seconded by Mr. Thomas with four in favor and Ms. WeMett opposed the welcome center splash pad repair cost share for CDD II in the amount of \$3,111.78 was approved.

On MOTON by Mr. Smith seconded by Mr. Thomas with all in favor the welcome center splash pad repair cost share for CDD III in the amount of \$3,286.06 was approved.

Staff will prepare a maintenance agreement for the next meeting.

C. RiverHouse Sand Filtration System

This item was taken earlier in the meeting.

SIXTH ORDER OF BUSINESS Other Business

Mr. Cameron asked what are the thoughts on permission for the schools to utilize the properties in RiverTown?

September 17, 2025 Rivers Edge CDD

Mr. Losco stated we can prepare a generic form. Kim has been inundated with the activities at the school so we were going to ask if we could do a generic form for any type of request for usage.

Ms. WeMett stated we discussed this at the last CDD II meeting, it came to our attention that we have a security agreement with Giddens Security. That same agreement has been in effect since 2015, and it is outdated. Since this is a cost share item, I think it would be to our advantage to get bids for security.

Mr. deNagy stated we can hold a separate joint meeting joint meeting about security.

Mr. Thomas stated I want to go back to repairs. We want Watersong residents to know that you are not going to be paying for that, that falls outside the budget. Mattamy subsidizes if anything falls outside the budget, so basically Mattamy pays for it.

On MOTION by Mr. Thomas seconded by Ms. WeMett with all in favor the meeting adjourned at 11:35 a.m.

On MOTION by Mr. Thomas seconded by Mr. Smith with all in favor the meeting adjourned at 11:35 a.m.

On MOTION by Mr. Maynard seconded by Mr. Cameron with all in favor the meeting adjourned at 11:35 a.m.

1.0 Introduction

1.1 The Districts

The Rivers Edge Community Development District, Rivers Edge II Community Development District, and Rivers Edge III Community Development District (together, the "Districts", the "Parties" or individual each the "party") are local units of special-purpose government, created pursuant to Chapter 190, Florida Statutes. The Districts are part of the development known as RiverTown ("RiverTown"). All three special districts serve the residents within RiverTown. The Districts were established for the purpose of, among other things, financing and managing the acquisition, construction, maintenance and operation of public infrastructure necessary for development to occur within RiverTown.

RiverTown is a master-planned community generally located south of Greenbriar Road and north and east of State Road 13. The planned development for the Districts includes a total of approximately 4,500 residential units. Each individual party has its own development program and infrastructure it is anticipated to finance, construct and own/operate. The Districts have entered into a Tri-party Interlocal and Cost Share Agreement Regarding Shared Improvement Operation and Maintenance Services and Providing for the Joint Use of Amenity Facilities ("Interlocal Agreement") dated October 16, 2019 to share grounds maintenance and amenity operating costs. Each District has their own budget, and each is currently responsible for the costs associated with its infrastructure subject to the cost allocations contained in the Interlocal Agreement.

The parties to the Interlocal Agreement have determined it in their individual and collective best interests to enter into the Interlocal Agreement as community resources are not necessarily bounded by the geographically established areas of each special district boundary. Furthermore, the Parties recognize the cost sharing advantages resulting from economies of scale associated with community development within RiverTown.

1.2 Executive Summary

This Cost Sharing Operations and Maintenance Services – Grounds Maintenance and Amenities Report ("Cost Share Report" or "Report") is structured to allocate the grounds maintenance and amenity operation and maintenance expenditures for infrastructure within each of the special districts to each of the Parties. The concept of this Cost Share Report is to allocate the costs of grounds maintenance and recreational amenities to the Parties based upon the ratio of equivalent residential units ("ERU") in each of the Parties boundaries relative to the total ERUs in

RiverTown. Such shared costs are further defined in this Report. The development program for RiverTown and relative ERUs are contained in Exhibit A of this Report.

The exhibits contained in this Report will be updated annually to reflect the changes in budgeted and projected costs that are anticipated to be shared. The sharing of costs does not infer additional responsibilities, ownership or provide for additional rights for any of the Parties that is not explicitly set forth in the Interlocal Agreement, which may be amended from time to time.

2.0 The Operations and Maintenance Expenditures of the Parties

2.1 Grounds Maintenance

Grounds Maintenance costs include the main roadways in and abutting each special district boundary and include not only landscaping costs but also costs for irrigation, reuse water, electric, stormwater management and administration (together "Grounds Maintenance"). The shared grounds maintenance costs for Rivers Edge CDD reflect the current budgeted costs plus future planned costs within that district. Since Rivers Edge II and III are in the process of development, the costs associated with these districts are estimated based upon engineering and staff input and based upon current development plans.

2.2 Amenities

Amenity costs reflect the current budgeted costs for the RiverHouse, RiverClub, and RiverLodge. For Rivers Edge II the costs allocated do not include the costs associated with the café operations and as such no profit or loss from the café will be allocated to Rivers Edge or Rivers Edge III. Any profit or loss from café operations will be solely retained by Rivers Edge II.

3.0 Cost Sharing Allocation

3.1 Structure

The cost for Grounds Maintenance and amenities are grouped together for each party and then allocated based upon the relative ratio of ERUs in each party's boundary to the total ERUs of RiverTown. As noted above in the executive summary, ERUs have been based upon actual or projected development unit types and benefit.

3.2 Grounds Maintenance Allocation to the Parties

The cost share allocation for the Grounds Maintenance category includes costs for: landscaping, irrigation, reuse water, electric, stormwater and administration. The costs for each party are summarized on Exhibit B and are then allocated to each party based upon the relative ratio of ERUs in each party's boundary to the total ERUs of RiverTown. Once the allocation of Grounds Maintenance category costs is established the amount of cost sharing due to/(from) is determined based upon the allocation of costs relative to the budgeted costs for that particular party.

3.3 Amenity Allocation to the Parties

The cost share allocation for the amenity's category includes the budgeted costs for each party. For Rivers Edge the budgeted costs for the RiverHouse are included less the revenues retained for special events and other revenue (currently community garden and tennis). This is necessary because the costs for special events and other revenue are included in the amenity costs for the RiverHouse. For Rivers Edge II the budgeted costs for the RiverClub are included, less café costs and special event revenues which are treated the same as Rivers Edge. For Rivers Edge III the budgeted costs for the RiverLodge are included, less special event revenues which are treated the same as Rivers Edge. The methodology for the allocation of amenity costs is contained in Exhibit C. Once the allocation of amenity costs is established the amount of cost sharing due to/(from) is determined based upon the allocation of amenity costs relative to the budgeted costs for that particular party.

1. RECITALS. The Recitals state above are hereby confirmed by the Parties as true and correct and are hereby incorporated herein by reference.

2. RECREATION USAGE RIGHTS AND LIMITATION ON USAGE RIGHTS.

- A. Recreation Usage Rights. Rivers Edge hereby agrees to make available to those persons owning real property and/or residing within Rivers Edge II, as such is defined in law and the Rivers Edge II adopted Amenity Use Policies ("Rivers Edge II Resident Landowners"), the rights to use Amenity Facilities owned by Rivers Edge to the same extent as those persons owning real property and/or residing within Rivers Edge, as such is defined in law and the Rivers Edge adopted Amenity Use Policies ("Rivers Edge Resident Landowners" and together with the Rivers Edge II Resident Landowners, hereinafter together referred to as "Resident Landowners"). Rivers Edge II hereby agrees to make available to Rivers Edge Resident Landowners the rights to use Amenity Facilities owned by Rivers Edge II to the same extent as Rivers Edge II Resident Landowners. All usage shall be subject to the Districts' adopted Amenity Use Policies, including the payment of all relevant use and rental fees and suspension and termination rules.
- B. Limitation on Usage Rights. Without the written consent of the other, neither Rivers Edge nor Rivers Edge II shall have the authority to permit or enter into an agreement with another entity expanding these usage rights for the benefit of persons or entities who are not Resident Landowners of either District.
- C. Annual User Rate Agreement. The Districts hereby agree that each will adopt one individual Annual User Rate in the amount of \$4,000.00 that allows a nonresident user to access the Amenity Facilities for a one-year period so long as this Agreement is in effect. The Districts may jointly agree

to modify this amount or allow other types of annual user rates. Proceeds from the payment of Annual User Rates shall be allocated on a pro-rata basis in accordance with each party's portion of the Shared Costs as further identified in Section 4 herein and in **Composite Exhibit C**.

D. Additional Amenities. Rivers Edge and Rivers Edge II hereby agree to extend the same rights and responsibilities contained in this Agreement to Rivers Edge III once established and upon acceptance of this Agreement by the Rivers Edge III Board of Supervisors.

3. DISTRICTS' OBLIGATIONS FOR AMENITY FACILITIES.

A. Rivers Edge obligations are as follows:

- (i) General duties. Rivers Edge shall be responsible for the management, operation and maintenance of the Improvements and the River House (but not the River Club) on its own or through its selected contractors, in a lawful manner and in accordance with applicable permits, regulations, code and ordinances. However, such responsibility shall not alter the rights, responsibilities and cost allocations as set forth herein.
- (ii) Inspection. Rivers Edge II may conduct regular inspections of the Improvements and shall report any irregularities to the Rivers Edge District Manager, or his/her designated representative.
- (iii) Investigation and Report of Accidents/Claims. Rivers Edge shall investigate and provide a report to the Rivers Edge II District Manager, or his/her designee, as to all accidents or claims for damage relating to maintenance and operation of the Improvements and the River House and Rivers Edge II shall do the same for the River Club. Such report shall at a minimum include a description of any damage or destruction of property. The Parties, to the extent necessary, shall cooperate and aid one another in making any and all reports required by any insurance company or as required by the other in connection with any accident or claim (including but not limited to claims filed with FEMA). No Party shall file any claims with the other's contractor(s) or insurance company without the prior written consent of the others Board of Supervisors.
- (iv) Compliance with Bidding Requirements of Florida Law and Payment of Shared Costs of Improvements. Rivers Edge shall be responsible for procuring bids, and in the event required to do so by law, publicly bidding all work necessary to operate and maintain the Improvements and the River House in compliance with applicable permits, regulations and DRI requirements. Rivers Edge II shall have the same responsibility for the River House and any other Improvements operated and maintained under its authority. Mattamy shall have the same responsibility for any Improvements

operated and maintained under its authority. Rivers Edge II and Mattamy shall provide to Rivers Edge on or before May 15 of each year the anticipated operation, management and maintenance costs associated with the River Club and any other improvements for which it is responsible that make up the Improvements identified hereunder so that such projected costs can be calculated consistent with this Agreement and disseminated to the Parties for budgeting purposes. Rivers Edge shall provide annually on or before June 1 to Rivers Edge II and Mattamy the total amount anticipated for the succeeding fiscal year for operation, management and maintenance of the Improvements, along with the projected Shared Costs, which calculation shall be as set forth in Section 4 herein. Failure to provide the required information by the dates set forth herein may be waived upon a showing of good cause; provided however that the Parties hereby agree the importance of timely submitted information for purposes of compliance with Florida law for budget approval and adoption.

B. Rivers Edge II obligations are as follows:

- (i) General duties. Rivers Edge II shall be responsible for the management, operation and maintenance of the River Club on its own or through its selected contractors, in a lawful manner and in accordance with applicable permits, regulations, code and ordinances.
- (ii) Inspection. Rivers Edge may conduct regular inspections of the River Club and shall report any irregularities to the Rivers Edge II District Manager, or his/her designated representative.
- (iii) Compliance with Bidding Requirements of Florida Law and Payment of Shared Costs of Improvements. Rivers Edge II shall provide to Rivers Edge annually on or before May 15 the total amount anticipated for the succeeding fiscal year for operation and maintenance of the River Club. Rivers Edge II shall be responsible for remittance of its portion of the Shared Costs (as set forth herein) within fifteen (15) days of receiving a timely submitted invoice from Rivers Edge, which amount is anticipated to be billed monthly or more often as may be required to assure cash flow. The appropriate cost shall be as set forth in Section 4 herein.

C. Mattamy obligations are as follows:

- (i) Mattamy hereby agrees that the Improvements, operations and services provide a special and peculiar benefit equal to or in excess of the costs reflected in the exhibits hereto to the property owned by Mattamy.
- (ii) Mattamy agrees to make available to the District the monies

necessary for the Shared Costs as called for in each year's adopted budgets by the Districts, which amounts will be determined each year and as may be amended from time to time in each District's sole reasonable discretion, within fifteen (15) days of written request by the District. Amendments to a District's budget adopted by that District at a duly noticed meeting shall have the effect of amending this Agreement without further action of the Parties. Funds provided hereunder shall be placed in the District's general checking account. In no way shall the foregoing in any way affect any District's ability to levy special assessments upon the property within that District, including any property owned by Mattamy, in accordance with Florida law, to provide funds for any unfunded expenditures whether such expenditures are the result of an amendment to the Districts' Budgets or otherwise.

- In the event Mattamy sells or otherwise disposes of its business or (iii) of all or substantially all of its assets relating to the Improvements, Mattamy shall continue to be bound by the terms of this Agreement until its obligations under this Agreement are deemed fulfilled as described herein, and additionally shall expressly require that the purchaser agree to be bound by the terms of this Agreement. In the event of such sale or disposition, Mattamy may place into escrow an amount equal to the then-unfunded portion of the applicable Shared Costs to fund any budgeted expenses that arise during the remainder of the applicable fiscal year. Upon (1) confirmation of the deposit of said funds into escrow, (2) evidence of an assignment to, and assumption by the purchaser of, this Agreement, and (3) acceptance by the Districts, Mattamy's obligation under this Agreement shall be deemed fulfilled. Mattamy shall give 90 days prior written notice to the Districts under this Agreement of any such sale or disposition.
- (iv) The Parties hereby agree to extend the same rights, obligations and responsibilities contained in this Agreement, including but not limited to this Section, to Rivers Edge III once established and upon acceptance of this Agreement by the Rivers Edge III Board of Supervisors.

4. MAINTENANCE CONTRACTS AND COST SHARING.

- A. Rivers Edge, through its contractor(s), shall be responsible for providing management and maintenance of the Offsite Improvements and the Additional Improvements. The Parties shall each be individually responsible for providing for the operation, management and maintenance of their respective Amenity Facilities, including contracting for such services, but such costs shall be part of the Shared Costs.
- **B.** Each party shall be responsible for its proportionate share of the costs associated with the operation, management and maintenance of the

Improvements, as well as its proportionate share for funding of capital reserves based on a reserve study report and recommendation to be prepared by the Parties' management, which shall together be considered "Shared Costs" and is as more particularly set forth in Composite Exhibit D. Such Shared Costs shall be calculated based upon consultation with the Parties methodology consultant(s) and engineer(s) and may change from time to time, based on updates to the development plan of the Parties properties. Based upon the current development plan for RiverTown, the calculations are as set forth in the table supporting such calculation in the attached Exhibit D. The Shared Costs percentage and total cost may change from time to time based on market factors affecting cost of labor, capital reserve requirements, delivery of additional infrastructure that is considered an "Improvement" and other factors. The costs anticipated for total operation and maintenance of the Improvements as of the effective date of this Agreement, for purposes of reference only, are as set forth in Exhibit D. Rivers Edge, in its sole and absolute discretion, will provide the selection of contractor(s) for operation and maintenance of the Offsite Improvements, Additional Improvements and the Rivers House, but not the River Club, and will separately invoice Rivers Edge II and Mattamy/Rivers Edge III for their proportionate shares of the Shared Costs. Rivers Edge II, in its sole and absolute discretion, will select its contractor(s) for operation and maintenance of the River Club and such costs shall be considered Shared Costs. It is further anticipated Rivers Edge III will have facilities that also make up "Improvements" which shall be shared in the future and will also be responsible for selecting its contractor(s) for operation and maintenance of its Amenity Facilities.

APPROVAL OF SUPPLEMENTAL MAINTENANCE SERVICES. Should any of the Parties desire enhanced or supplemental maintenance services of the Improvements, such Party shall notify the other Parties in advance and in writing, of such request, and the Parties shall work in good faith to determine the appropriate level of enhancement or maintenance services and the appropriate cost share associated therewith, if any, and such agreement shall be as set forth in a separate written instrument that provides the scope of services, compensation and cost share associated therewith. The Parties hereby acknowledge and agree that according to the current development plan for RiverTown community, additional improvements are expected to be added to the "Improvements" category. The addition of such improvements shall be as determined jointly by the Parties engineer(s) and based upon the RiverTown development plan. The calculation of Shared Costs for such additional improvements shall be determined together by each Parties engineer(s) and methodology consultant(s) and shall be subject to the terms and conditions of this Agreement. Mattamy hereby recognizes the methods for determining said calculation and so long as such methodology and calculation is reasonable, hereby agrees to waive any objections, suits, demands or other challenge to the validity of the methodology and costs included in the Shared Costs.

6. DEFAULT; CONFLICT RESOLUTION; TERMINATION.

- A. Default; Cure. A default by any party under this Interlocal Agreement shall entitle the other to all remedies available at law or in equity, which may include, but not be limited to, damages, injunctive relief and specific performance. Each of the Parties hereto shall give the other Parties written notice of any defaults hereunder and shall allow the defaulting party not less than fourteen (14) days from the date of receipt of such notice to cure monetary defaults and thirty (30) days to cure other defaults.
- **B.** Joint Meeting. When requested by a District Board, as evidenced by a vote of such Board, to discuss issues of concern regarding the subject of this Agreement, a "Joint Meeting" shall be called and noticed pursuant to the legal requirements of public meetings. The Parties agree to use good faith negotiation in efforts to resolve any such issues or areas of concern relating to the subject of this Agreement.
- C. Mediation. In the event the Parties are unable to resolve the issues which are the subject of the Joint Meeting, the Parties shall submit their dispute to mediation. The Parties agree to cooperate in the selection of a mediator, and agree to share equally in mediation expenses, including the fees of the mediator. However, each party shall be responsible for the fees of its counsel. This mediation shall be held within forty-five (45) days of the conclusion of the Joint Meeting. This provision in no way abdicates the responsibilities of each party as set forth in the Agreement.
- **D.** Mutual Termination. The Parties shall have the option of terminating this Agreement only by entering into a written Termination Agreement, jointly approved by the Parties which shall be filed with the Clerk of the Circuit Court of St. Johns County, Florida. Recognizing that this Interlocal Agreement is necessary to ensure the continued maintenance of Improvements, including those that are required by various development approvals that service County and State roadways, the Parties agree each will continue to fund the operation and maintenance of the Improvements through and until the final resolution of disagreements hereunder. Mattamy may terminate its obligations under this Agreement upon notifying the Districts of an assignment of its rights and responsibilities under this Agreement, which assignment must be approved, reduced to writing and executed by the Districts and which approval will not be unreasonably withheld, as more particularly set forth in Section 3 herein.
- 7. INSURANCE. During the term of this Agreement, the Parties shall each maintain general liability coverage in an amount sufficient to protect its interests relative to the Improvements. Further, the Parties shall require any contractor retained to perform any of the services or other related work for the Improvements to maintain at the minimum the following insurance coverage throughout the term of this Agreement:
 - **A.** Worker's Compensation Insurance in accordance with the laws of the State of Florida.
 - **B.** Commercial General Liability Insurance covering the Contractor's legal liability for bodily injuries, with limits of not less than \$3,000,000 combined

- single limit bodily injury and property damage liability, and including, at a minimum, Independent Contractors Coverage for bodily injury and property damage in connection with subcontractors' operation.
- C. Employer's Liability Coverage with limits of at least \$1,000,000 (one million dollars) per accident or disease.

1.0 Introduction

1.1 The Districts

The Rivers Edge Community Development District and Rivers Edge II Community Development Districts (together, the "Districts") are local units of special-purpose government, created pursuant to Chapter 190, Florida Statutes. The Districts part of the development known as ("RiverTown"). A third community development district is planned, and the establishment petition filed with St. Johns County as of the date of this report, which is anticipated to be known as the Rivers Edge III Community Development District ("Rivers Edge III CDD", and with the Districts, the "Parties" or individual each the "party"). All three special districts will serve the residents within RiverTown. The Districts were established for the propose of, among other things, financing and managing the acquisition, construction, maintenance and operation of public infrastructure necessary for development to occur within RiverTown; likewise, Rivers Edge III is expected to be establish for the same purposes.

RiverTown is a master-planned community generally located south of Greenbriar Road and north and east of State Road 13. The planned development for the Districts and Rivers Edge III includes a total of approximately 5,039 residential units. Each individual party has its own development program and infrastructure it is anticipated to finance, construction and own/operate. The Districts and Mattamy Jacksonville, LLC (as 100% landowner of the lands anticipated to be established as Rivers Edge III) have entered into an Tri-party Interlocal and Cost Share Agreement Regarding Shared Improvement Operation and Maintenance services and Providing for the Joint Use of Amenity Facilities ("Interlocal Agreement") dated October 16,2019 to share landscape, stormwater and amenity operating costs. After Rivers Edge III CDD

establishment, it is anticipated it will replace Mattamy Jacksonville, LLC as a party to the interlocal agreement. Each District has their own budget and each is currently responsible for the costs associated with its infrastructure subject to the cost allocations contained in the Interlocal Agreement.

The parties to the Interlocal Agreement have determined it in their individual and collective best interests to enter into the Interlocal Agreement as community resources are not necessarily bounded by the geographically established areas of each special district boundary. Furthermore, the Parties recognize the cost sharing advantages resulting from economies of scale associated with community development within RiverTown.

1.2 Executive Summary

This Cost Sharing Operations and Maintenance Services -Landscaping and Amenities Report ("Cost Share Report" or "Report") is structured to allocate the landscaping, stormwater and amenity operation and maintenance expenditures for infrastructure within each of the special districts to each of the Parties. The concept of this Cost Share Report is to allocate the costs of master/community landscaping, irrigation, stormwater and recreational amenities to the Parties based upon the ratio of equivalent residential units ("ERU") in each of the Parties boundaries relative to the total ERU's in RiverTown. Such shared costs are further defined in this Report. The development program for RiverTown and relative ERU's are contained in **Exhibit A** of this Report.

The exhibits contained in this Report will be updated annually to reflect the changes in budgeted and projected costs that are anticipated to be shared. The sharing of costs does not infer additional responsibilities, ownership or provide for additional rights for any of the Parties that is not explicitly set forth in the Interlocal Agreement, which may be amended from time to time.

2.0 The Operations and Maintenance Expenditures of the Parties

2.1 Landscaping/Irrigation/Stormwater

Landscaping costs have been structured into "master" and "additional landscaping" categories. The master landscaping category costs include the main roadways in and abutting each special district boundary and include not only landscaping costs but also costs for irrigation, reuse water, electric, stormwater management and administration. The "additional landscaping" category costs neighborhood landscaping areas and also include costs for water, electric, irriaation, reuse stormwater and administration. The shared landscaping costs for Rivers Edge CDD reflect the current budgeted costs plus future planned costs within that district. Since Rivers Edge II and III are in the process of development, the landscaping costs associated with these districts are estimated based upon engineering and staff input and based upon current development plans.

2.2 Amenities

Amenity costs reflect the current budgeted costs for the RiverHouse and RiverClub along with a budget estimated for the Rivers Edge CDD III planned amenities. For Rivers Edge II the costs allocated do not include the costs associated with the café operations and as such no profit or loss from the café will be allocated to Rivers Edge or Rivers Edge III. Any profit or loss from café operations will be solely retained by Rivers Edge II.

3.0 Cost sharing Allocation

3.1 Structure

The cost for landscaping/irrigation/stormwater and amenities are grouped together for each party and then allocated based upon the relative ratio of ERUs in each party's boundary to the total ERUs of RiverTown. As noted above in the executive summary, ERU's have been based upon actual or projected development unit types and benefit.

3.2 Landscaping/Irrigation/Stormwater Allocation to the Parties

The cost share allocation for the landscaping category includes costs for: landscaping, irrigation, reuse water, electric, stormwater and administration. The costs for each party are summarized on **Exhibit B** and are then allocated to

each party based upon the relative ratio of ERUs in each party's boundary to the total ERUs of RiverTown. Once the allocation of landscaping category costs is established the amount of cost sharing due to/(from) is determined based upon the allocation of costs relative to the budgeted costs for that particular party.

3.3 Amenity Allocation to the Parties

The cost share allocation for the amenity's category includes the budgeted costs for each party. For Rivers Edge the budgeted costs for the RiverHouse are included less the revenues retained for special events. This is necessary because the costs for special events are included in the amenity costs for the RiverHouse. For Rivers Edge II the budgeted costs for the RiverClub are included, less café costs and special event revenues which are treated the same as Rivers Edge. A few additional adjustments are made to Rivers Edge II to reflect costs that have already been allocated or should not be reflected for cost sharing. For Rivers Edge III the projected budgeted costs for amenities is included in the cost share allocation. The methodology for the allocation of amenity costs is contained in **Exhibit C** and as such contains the adjustments described above. Once the allocation of amenity costs is established the amount of cost sharing due to/ (from) is determined based upon the allocation of amenity costs relative to the budgeted costs for that particular party.

OUR PROCESS

ACCEPTANCE: Before the work begins, a Five Star Painting Production Manager will call to confirm project details.

START DAY: A Five Star representative will always do a thorough walk around with the customer, before the job starts, to ensure everyone has the same understanding. E.g. Colors, wall to be painted, timeframes, etc. During that initial walk-through, we will finalize the project scope to ensure a mutual understanding and the customer's expectations (e.g., anticipated repairs, completed finishes, time frames, etc). Additionally, the Production Manager will note all existing damage (e.g. damaged walls, texture issues, scratches and damage to wood floors, over-paint on ceilings, existing paint spills, etc) to avoid misunderstandings at the end of the project.

PREPARATION: We will remove all switch plates, outlet covers, and other items from walls and surfaces that will be painted. All floors and customer furniture/belongings will be covered with paper/plastic as needed. We fill small holes, as needed and patch walls as agreed. We ask that the customer move all personal belongings and electronics off of and away from the walls. We will assist with larger items if needed. While we will take precautions with items as we move them, we are not responsible for damaged flooring or broken items if we are required to move furniture or appliances in order to access the surfaces to be painted.

PAINTING: Unless specified otherwise, Five Star Painting crew will roll and brush cut using selected paint on all surfaces that will be painted. FINAL CLEANUP: Five Star Painting crew will clean up daily and a thorough clean up at job completion.

PAYMENT: Near the end of the job, the Production Manager will conduct a final inspection and acceptance walk-around with the customer and Crew Foreman to ensure a high-quality result and customer satisfaction. Final payment is expected when job is accepted as complete.

- · We ask that no other contractors be on site during the painting process. Should we need to work with other contractors, we will need to know in advance to ensure no delays in work for any party occur.
- Five Star will always ask the customer where we can clean out our gear, we will never assume we can use a specific sink or area. Our gear will always be stored in an approved area and will be covered with a drop cloth at the end of the day.
- Final colors, sheens and materials to be determined prior to start based on customer preference and availability. The customer is responsible for selecting colors. Should the customer decide that the color they selected is not to their liking and they would like for an area to be repainted, a change order will be issued to cover the repaint costs.
- · A Five Star representative will conduct a thorough walk-around with the customer to ensure nothing is missed. Final payment is due at completion of the job and once the walk through has been done. Payment may be made by check, cash or credit card (if over \$2500). Financing is also available for projects greater than \$4000 but must be secured prior to the job starting. If interested in financing, please ask your point of contact for more information.
- Should the scope of work change, a new estimate or a change order will be issued.
